

Snow Defender™ 55RF

The most versatile single seam snow guard for standing seam roofing.

The 55RF is designed to combine the versatility of the S-5!™ clamp systems with the beauty and durability of the Snow Defender™ series. It adapts quickly to S-5!™ clamps using one bolt that is easily accessed from the top and aligns squarely every time.

Designed as a versatile snow guard that fits vertical-folded seam profiles for S-5!™, U, S, N, V clamps (sold separately).

- Type 304 Stainless Steel
- Does not penetrate metal
- Powder coated or mill finish
- No caulk needed
- Patent Pending
- Fits multiple standing seam profiles
- Aligns squarely on roof

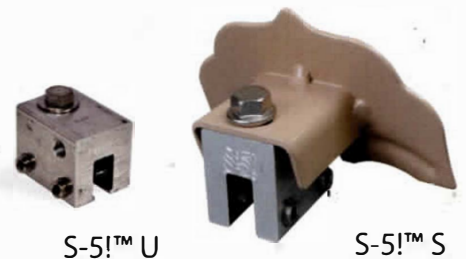

Shown with S-5!™ N Clamp
